

komodo  [®]

PRODUCT CATALOGUE 2014/2015

Welcome to Komodo and the world of fascinating and unusual pets.

Reptile pet keeping is more popular than ever. Recent research* shows that there are now probably more reptile pets in the UK than there are dogs, with around 8 million reptiles in over a million households. As reptile keeping goes mainstream around the world, it is no surprise that more and more pet stores are catering for this growing industry sector.

Komodo reptile products are proven to perform:

For reptiles: reliable products to provide habitat enrichment and welfare benefits.

For keepers: equipment that looks great, is easy to install and simple to use.

For retailers: boost profits with our comprehensive range of Komodo products to cater for hobbyists of all levels.

Our commitment

We're proud of our commitment to improving reptile pet care. We work hard to improve standards and provide greater benefits at every stage of the pet keeping process; from the development of our product range and our service to retailers to consumer satisfaction and improvements in reptile welfare. It's important to us because we care.

- Maximise marketing potential with Komodo in-store merchandising and display
- Practical point-of-sale support and literature
- Instant information for you and your customers via the Komodo website
- Improve reptile know-how with Komodo in-store training days for your staff
- Increase footfall and sales potential with Komodo in-store reptile experience days for your customers
- Benefit from Komodo marketing and advertising campaigns to increase product awareness
- Regular sales support and advice from our dedicated team of Komodo reps

The stats...

- 20 years: Time that the reptile sector has been the fastest growing part of the pet industry.
- 130 million: Value of the UK reptile pet trade.
- 1000: Number of UK stores selling reptile pets.
- 2 million: Number of crickets produced in the UK each year for reptile live food.
- 1 million: Number of frozen mice sold each week for snake food.
- 1 thousand: Number of reptile vivariums sold each week.
- 1: Number of phone calls required to secure your slice of the profits.

*Statistics courtesy of the Federation of British Herpetologists and The Reptile and Exotic Pet Trade Association.

Chilean Rose Tarantula
(*Grammostola rosea*)
Native to Chile but also found
in Bolivia and Argentina

FEEDING REPTILES HAS NEVER BEEN EASIER. EVERY PRODUCT IN THE KOMODO RANGE OF REPTILE FOODS AND SUPPLEMENTS HAVE BEEN SPECIALLY FORMULATED TO PROVIDE THE RIGHT BALANCE OF NUTRIENTS.

Komodo tortoise diets are formulated to provide a complete nutritional diet for popular species of pet tortoise. The diet is high in fibre with a calcium to phosphorous ration of 3.5:1.

Our tortoise diets have been extensively tested to develop a range of flavours that tortoises love:

- Banana
- Fruit and flower
- Cucumber
- Dandelion
- Salad mix

U45352	Holistic Terrapin Diet 125g	Approx. 10x8cm	Each

MINERALS & VITAMINS

Komodo Jelly Pots are perfect for insects such as crickets, beetles, cockroaches and millipedes. They are a convenient way to provide well nourished live food to reptiles when used as part of a balanced diet.

The convenient pot can simply be placed within the live foods enclosure helping to keep them healthy which in turn provides the reptile with nutrient-packed insects. Can also be used as an occasional treat for nectar or fruit eating reptiles. Available in six flavours: Strawberry, Brown Sugar, Banana, Honey, Lactic Acid and Mango.

HYDRATION

Komodo's Beastie Drink is a safe, convenient and hygienic way to provide liquid to invertebrate pets and feeder insects.

These creatures are prone to drowning when faced with a bowl of water. Beastie Drink is a gel formed product that holds water, providing a safe and easy way to hydrate your bugs without risk of drowning.

BEASTIE DRINK
500ml Code: U45450

Best practice – Gut loading
Feed and water live food for at least 12 hours prior to feeding them to your animals.
This helps to maximise the nutritional value of feeder insects.

REVITALIVE
105g Code: U45440

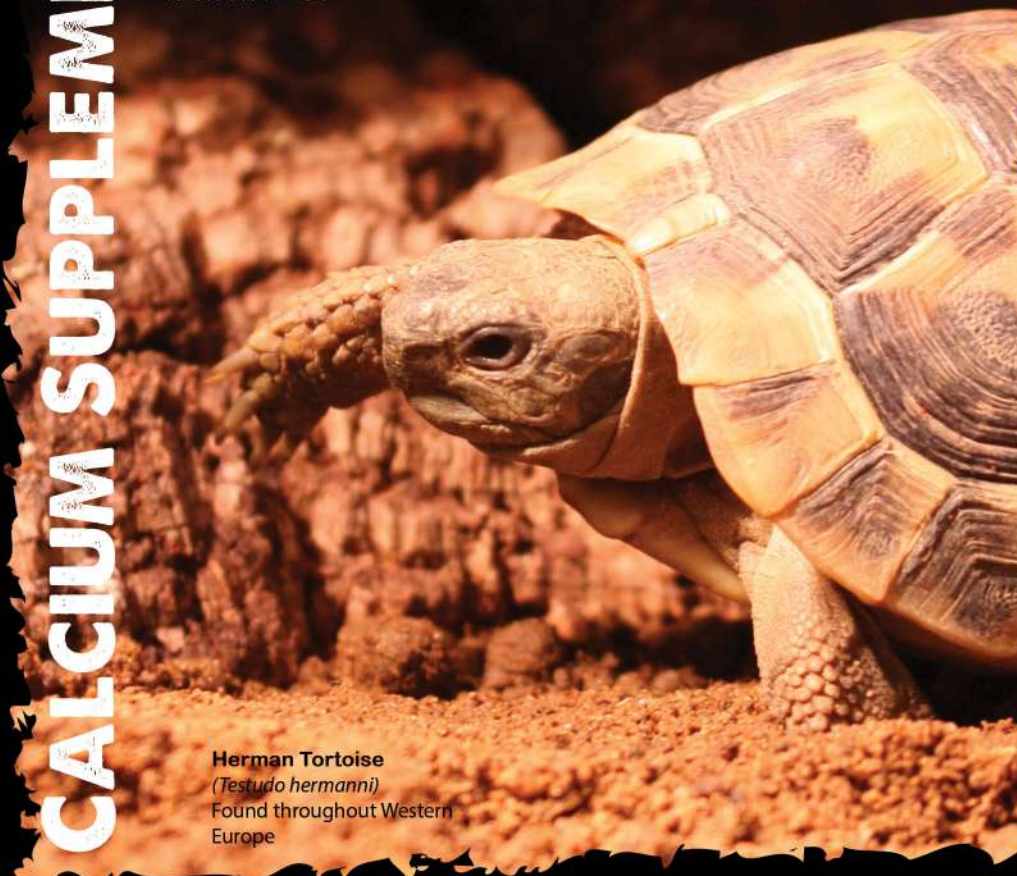

Transporting reptiles can cause dehydration and other stress related issues such as diarrhoea and lack of appetite.

Revitalive aids reptile recovery after transportation or other stresses. Dissolved in water Revitalive promotes effective hydration and provides essential electrolytes and vitamins.
A vital tool in any reptile first aid kit.

CALCIUM SUPPLEMENTS

Not all calcium supplements are the same. Carnivores, herbivores, nocturnal and sun loving reptiles all need specific calcium formulations to provide the ideal nutrient balance.

Herman Tortoise
(*Testudo hermanni*)
Found throughout Western Europe

Komodo
www.komodoproducts.com

TOP TIP:
Looking for an easy way to coat feeder insects with supplements? Simply place a generous amount of supplement powder into a plastic bag and then add your feeder insects. Shake until evenly coated. Done!

CALCIUM SUPPLEMENT WITH VITAMIN D3

105g Code: U45408

- A calcium supplement enhanced with Vitamin D3, essential for strong, healthy bone growth.
- Micro-milled to produce a super-fine powder for ensure maximum sticking power to coat feeder insects.
- Suitable for all stages of growth from hatching to adult and ideal for many basking species of lizards, tortoises, turtles and frogs.

CALCIUM SUPPLEMENT FOR HERBIVORES

115g Code: U45400

- Calcium supplement enhanced with a broad spectrum of vitamins, minerals and phosphorus to help provide a balanced diet for herbivores.
- Specially formulated to be applied to fresh herbivorous diets containing grass, leaves, fruit and vegetables.

CALCIUM SUPPLEMENT FOR CARNIVORES

135g Code: U45405

- Calcium supplement enhanced with a broad spectrum of vitamins and minerals, but ZERO phosphorus.
- Helps provide a balanced diet for meat eating reptiles and amphibians.
- Ideal for animals with access to direct sunlight or UVB light sources or do not require higher amounts of vitamin D3

CALCIUM DUSTING POWDER

200g Code: U45410

A pure calcium carbonate supplement suitable for various applications, such as dusting live food for:

- Nocturnal insectivores, such as Leopard Geckos and Crested Geckos.
- Diurnal reptiles that bask under UVB light, such as Bearded Dragons and Frilled Dragons. Many reptile species will also lick calcium direct from a small dish placed in their enclosure or it can be dusted over herbivore diets.

Product Code	Description	Dimensions	Pack
U45450	Beastie Drink 500ml	Approx. 10x8cm	Each
U45440	Revitalive 105g	Approx. 16x8.5cm	Each

Product Code	Description	Dimensions	Pack
U45408	Calcium Supplement with Vitamin D3 105g	Approx. 9x4.5cm	Each
U45400	Calcium Supplement for Herbivores 115g	Approx. 9x4.5cm	Each

NUTRI-CAL

A Complete Supplement for Reptiles & Amphibians

CA:D3

NEW FOR 2014!

Nutri-Cal is a complete multivitamin, packed with a precise balance of key nutrients essential for reptile health. Scientifically formulated to aid in the prevention of metabolic bone disease. Nutri-Cal contains calcium, D3 and a broad complex of vitamins and minerals to support growth and long term well being. Nutri-Cal is an important tool in the feeding regime for the majority of tortoises and lizards. Designed for maximum adherence to live insects and fresh plant food.

- Vitamin A supporting eye health
- Vitamin B assisting overall fitness and wellbeing
- Vitamin C aiding the immune system and providing natural antioxidants
- Vitamin D helping the calcium absorption and lowering the risk of MBD
- Vitamin E bolstering growth and tissue development

Nutri-Cal can play an important part of reptile nutrition alongside a varied & healthy diet & correct basking temperatures. Together they are essential to enable proper & efficient digestion in reptiles.

It is advisable to always apply supplements to reptiles food at every meal. At times when Nutri-Cal is not being used, we recommend replacing it with Komodo's Calcium Dusting Powder.

Product Code	Description	Dimensions	Pack
83220	Nutri-Cal 75g	Approx. 9x4.5cm	Each
83221	Nutri-Cal 150g	Approx. 11.5x6.5cm	Each
83222	Nutri-Cal 330g	Approx. 13x8cm	Each
83223	Nutri-Cal 1Kg	Approx. 14.8x14cm	Each

Adult Bearded Dragon
(Pogona)
Found in many locations throughout Australia

Crested Gecko
(*Rhacodactylus ciliatus*)
Discovered from New Caledonia

ADVANCED

komodo
www.komodoproducts.com

Crested Geckos are one of the most popular pet lizards in the world, and it is easy to see why. They're small, colourful, easy to keep and fun to observe, making them an ideal pet for today's busy family.

Komodo's Advanced Crested Gecko Diet is a complete food which contains all of the vital nutritional requirements. Calcium, Vitamin D3 and a broad spectrum of vitamins and minerals are finely balanced to create this diet and it has been designed and tested for maximum aroma and palatability to make a food which geckos will love.

This complete diet also eliminates the need to feed live insects, making Crested Geckos an ideal pet for customers who can't stand bugs.

CRESTED GECKO DIET

Specifically Selected Advanced Formula

Did you know...
Crested Geckos were thought to be extinct until 1994, when breeder hobbyists rediscovered them on the islands of New Caledonia. Thanks to captive breeding the Crested Gecko is now the 4th most prolifically produced lizard in the world.

Product Code	Description	Dimensions	Pack
83224	Advanced Crested Gecko Diet 75g	Approx. 9x4.5cm	Each
83225	Advanced Crested Gecko Diet 180g	Approx. 11.5x6.5cm	Each
83226	Advanced Crested Gecko Diet 330g	Approx. 13x8cm	Each

Wild reptiles will eat many different types of food and obtain a variety of nutrients from the different items it consumes. In captivity it is necessary to replicate this range of nutrients by using nutritional supplements.

Komodos Premium range of supplements is formulated to complement the diet of the most popular pet species.

Reptile Habitat

maintains correct temperature

superior ventilation

safety glass doors

Wooden vivariums are the most popular type of reptile enclosure in the UK today, with over 1000 being sold each week. Komodo's Ecology Reptile Habitats' innovative design features combine high performance and easy installation. Our easy-assemble flat packs are simple to store and transport, and they're available in sizes to suit the most popular pet-reptile species.

EASY INSTALLATION

Easy access for electrical cables and thermostat probes means no more unsightly drill holes. Customers can even fit larger items by easy removal and replacement of the top panel.

KOMODO DESIGN BENEFITS

CLEVER DESIGN FOR SUPERIOR AIR FLOW

Komodo Reptile Habitat vivariums feature ventilation installed in each side panel of the unit, providing better airflow than most traditional vivarium designs. With ventilation on the side, rather than on the back, our vivariums can be positioned against walls, as indeed most are, without impeding the flow of air through the vents. Improved air flow helps to prevent the build up of CO² (carbon dioxide) and harmful pathogens.

LONGER LASTING

Reptile Ecology Habitats are made from high-quality flake board for better insulation and increased durability, compared with traditional chipboard vivs. Panels are fixed together using stronger fittings at more regular intervals to provide a super-secure construction.

PEACE OF MIND

Safety glass sliding doors aren't just for easy access and great visibility. In case of an accident, our precision fitted safety glass is will shatter, not shard, eliminating risks for both the keeper and the kept.

PRACTICAL STACKING SOLUTION

Non-slip feet allow Ecology Reptile Habitats to be stacked, making them safe in situ and ideal for the hobbyist with multiple enclosures.

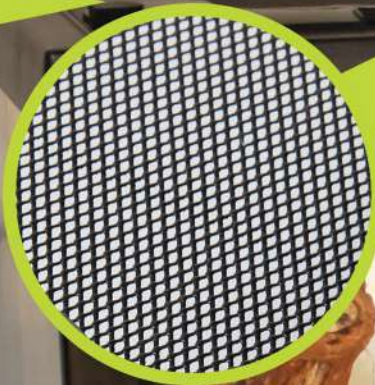

USING A REPTILE-SAFE SILICONE SEALANT ON THE INSIDE EDGES OF OUR ECOLOGY REPTILE HABITATS WILL GUARD AGAINST MOISTURE DAMAGE. THIS MAKES ECOLOGY REPTILE HABITATS IDEAL FOR KEEPING REPTILES THAT REQUIRE A HUMID ENVIRONMENT

komodo

EASY ASSEMBLE TERRARIUM

KOMODO DESIGN BENEFITS

- Removable Mesh Top & Side Vent**
- Increased ventilation to reduce build up of CO² and other harmful pathogens
 - Easy access for trouble free maintenance
 - Easy installation of heating and lighting appliances

Prevention Clips
Help to prevent the escape of even the smallest insect

All front opening habitats include a sliding glass lock.

Watertight Base
Ideal for humid habitats and semi-aquatic species

Reptile keeping came of age with attractive terrarium design. Beautiful, well dressed reptile enclosures became living art to be proudly displayed in the home. The Komodo Glass Terrariums is a design classic. With excellent visibility and easy access, this enclosure will appeal to reptile keepers with a flair for vivarium décor. Komodo Glass Terrariums also boast a range of features to boost reptile enrichment, support effective husbandry and promote excellent reptile welfare too. These self-assembly enclosures are easy to store, easy to build and available in a range of sizes to suit all popular pet reptile species. Choose classic black or stylish white.

- Glass Construction**
- Creates an ideal thermal gradient
 - Fabulous visibility
 - Maximum décor option
 - Tight fitting construction to prevent live food escapes
 - Cable access port for easy installation of thermostat, lighting drip systems etc

A well dressed vivarium display is an excellent sales tool. Offering a 'buy this set up' discount containing all of the products in the display can often seal the deal.

Leopard Gecko
(*Eublepharis macularius*)
Found in the deserts of Asia and
throughout Pakistan.

EASY ASSEMBLE TERRARIUMS

Conveniently supplied in flat pack form our easy to assemble White Glass Terrariums are both contemporary and understated. The combination of functional design with a visually attractive gloss finish makes them a stylish choice and ideal for keeping a variety of reptiles. As with all Komodo Glass Terrariums, the water tight base and superior ventilation also makes them an ideal choice for keeping amphibians.

EASY ASSEMBLE MESH TERRARIUM

This highly attractive terrarium has been designed specifically for arboreal Chameleons. The all metal mesh surround allows superior ventilation whilst front glass sliding doors still allow good visibility and the watertight base allows live plants to be kept to fully enrich the chameleons environment.

Key Features

- All metal mesh surround – allows superior ventilation to meet the specific needs of chameleons
- Water tight base – live plants can be kept to enrich the chameleons environment
- Terrarium comes flat packed and is easy to assemble

All of this, combined with the standard Komodo Glass Terrarium features, creates a highly functional, and striking enclosure for any arboreal Chameleon.

STARTER KITS

As with every pet, reptiles have specific care needs: from providing the right temperature gradient to choosing the best substrate. Komodo Starter Kit enclosures contain all of the essentials your customer needs for their new reptile pet. Each Starter Kit is designed with specific reptile pet species in mind, and includes an easy-to-follow set-up guide. They're just the thing for customers who are new to the reptile-keeping hobby.

'Off-the-shelf' habitat solutions

LEOPARD GECKO STARTER KIT

W40xD30xH35cm Front & Top Opening Code: U45101

As a terrestrial lizard, leopard geckos love a heated enclosure and plenty of places to hide. Equipped with heat mat, shelter and nutrition supplement.

Kit Includes:

- Terrarium
- Den
- Moss
- Leopard Gecko IDP
- Comprehensive set up guide
- Heat Mat
- Thermometer
- CaCo3 Desert Terrain
- Kidney Dish

* Contents may vary and example image shows additional decor that can be purchased separately.

CORN SNAKE STARTER KIT

W40xD30xH35cm Top Opening Code: U45102

This Starter Kit is ideal for many of the popular starter snake species and includes all of the necessary equipment to provide the necessary thermal gradient. Perfect for hatchling Corn Snakes, King Snakes, Hognose Snakes and many other colubrid species. Please see our Advanced Corn Snake Kit for enclosures suitable for adult specimens on page 40.

Kit Includes:

- Terrarium
- Den
- Thermometer
- Moss
- Heat Mat
- Aspen Bedding
- Kidney Dish
- Comprehensive set up guide

* Contents may vary and example image shows additional decor that can be purchased separately.

SPIDER/ SCORPION STARTER KIT

W40xD30xH35cm Top Opening Code: U45100

The correct temperature and the right substrate are important considerations for invertebrate enclosures, so this starter kit is a great choice for most popular spiders and scorpions.

Kit Includes:

- Terrarium
- Bark
- Dual Gauge
- Comprehensive set up guide
- Heat Mat
- Tropical Terrain Substrate
- Kidney Dish

* Contents may vary and example image shows additional decor that can be purchased separately.

STARTER KITS

Top Tip The standard Komodo Starter Kits can be enhanced with other Komodo décor products. Be sure to up-sell additional décor as this not only boosts secondary spend profits but creates a personalised and visually pleasing enclosure for your customer to enjoy.

CRESTED GECKO STARTER KIT

W50xD30xH40cm Front & Top Opening Code: U45105

This enclosure contains everything needed to get started with Crested Geckos. The enclosure is suitable for young gecko's right through to adulthood and can be custom designed with additional decor from the Komodo range.

- Kit Includes:
- Terrarium
 - Light Dome
 - Bark
 - Kidney Dish x2
 - Comprehensive setup guide
 - Orchid Bark Forest Terrain Fine
 - Heat Mat
 - Dual Gauge
 - Moss
 - Vine
 - Advanced Crested Gecko Diet 75g
 - Small Spray Bottle

* Contents may vary and example image shows additional decor that can be purchased separately.

ROYAL PYTHON STARTER KIT

W50xD30xH40cm Front & Top Opening Code: U45106

Young Royal Pythons need plenty of shelter and a substrate that can handle a little humidity. The Royal Python Starter Kit is suitable for hatchlings and young snakes up to around one year of age.

- Kit Includes:
- Terrarium
 - Aspen Bedding
 - Bark
 - Kidney Dish
 - Heat Mat
 - Dual Gauge
 - Moss
 - Comprehensive set up guide

* Contents may vary and example image shows additional decor that can be purchased separately.

STARTER KITS

Off-the-shelf habitat solutions

TERRAPIN STARTER KIT

W50xD40xH40cm Top Opening Code: U45110

This starter kit is ideal for young turtles in the care of hobbyists with some reptile keeping experience. Musk Turtles, Mud Turtles and Reeves Turtles are amongst the most popular and suitable pet species.

- Kit Includes:
- Terrarium
 - Black Dome
 - Turtle Ramp
 - Thermometer
 - Basking Spot Bulb
 - Ballast
 - Decorative Plant x2
 - Internal Filter
 - Thermostat Heater
 - Internal Filter
 - Fluorescent Bulb

* Contents may vary and example image shows additional decor that can be purchased separately.

TORTOISE STARTER KIT

W80xD45xH50cm Front & Top Opening Code: U45120

Ventilation is an important consideration for tortoise enclosures, so the screen top of the Tortoise Starter Kit is ideal. A spotlight heat bulb, tortoise food and nutritional supplement complete the package.

- Kit Includes:
- Terrarium
 - Black Dome
 - Spot Bulb
 - Bark
 - Tortoise Diet
 - CaCo3 Desert Terrain
 - Heat Mat
 - Calcium Supplement with D3
 - Tropical Terrain Substrate
 - Thermometer x2
 - Kidney Dish x2
 - Comprehensive Set up Guide

100w Code: 82252
150w Code: 82253

Provides a peaceful night time light and temperature.

- Soft light provides a peaceful moonlight glow
- Emits up to 90% of power as beneficial IRA heat rays
- Optimum heat source for efficient thermoregulation and metabolism
- Can be thermostatically controlled for safer use

HALOGEN SPOT BULB SCREW

35w Code: 82240
50w Code: 82241
75w Code: 82242
100w Code: 82243

Special reflector lamps creating a high intensity sunspot

- Produces more intense IRA heat rays
- Provides a hot white light for brighter, warmer day times
- Highly efficient - longer life & less power consumption
- Emits up to 90% of power as beneficial intense IRA heat rays
- Optimum heat source for efficient thermoregulation and metabolism
- Good output of UVA rays stimulates appetite and the immune system
- Can be thermostatically controlled for safer use

UVB LIGHTING

COMPACT LAMP UVB 2%

15w UVB 2.0 Code: 82270
26w UVB 2.0 Code: 82271

Compact 2% UVB lamp for fuller spectrum daytime light

- Ideal for reptiles not requiring high levels of UVB
- High output of UVA rays promotes vision, appetite and the immune system
- UVB enables production of some vitamin D3 for healthy bones
- Bright, cool, white light output, with excellent colour rendition
- Compact design saves space and energy
- Energy & light efficient, less power demand than tubes
- E27 screw cap fitting. No ballast required, use horizontally

COMPACT LAMP UVB 5%

15w UVB 5.0 Code: 82272
26w UVB 5.0 Code: 82273

Compact 5% UVB lamp for forest and shade reptiles

- For reptiles requiring moderate levels of UVB
- High output of UVA rays promotes vision, appetite and the immune system
- UVB enables production of vitamin D3 for healthy bones
- Bright, cool, white light output, with excellent colour rendition
- Compact design saves space and energy
- Energy & light efficient, less power demand than tubes
- E27 screw cap fitting. No ballast required, use horizontally

COMPACT LAMP UVB 10%

15w UVB 10.0 Code: 82274
26w UVB 10.0 Code: 82275

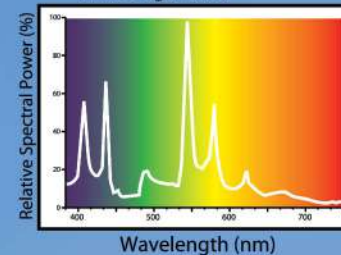

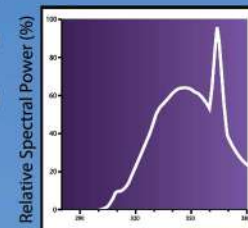

Compact 10% UVB lamp for desert reptile species

- For reptiles requiring higher levels of UVB
- High output of UVA rays promotes vision, appetite and the immune system
- UVB enables production of vitamin D3 for healthy bones
- Cool white light output, with excellent colour rendition
- Compact design saves space and energy
- Energy & light efficient, less power demand than tubes
- E27 screw cap fitting. No ballast required, use horizontally

UVB LIGHTING

2% UVB tube for fuller spectrum daytime light

- Ideal for reptiles not requiring high levels of UVB
- High output of UVA rays promotes vision, appetite and the immune system
- UVB enables production of vitamin D3 for healthy bones
- Bright, cool, white light output, with excellent colour rendition
- Linear design distributes light widely and evenly

A versatile range of lighting and heating fixtures manufactured using heavy duty, heat resistant ceramics which are able to withstand high temperatures. The Komodo range offers fixtures suitable for the whole spectrum of reptile habitats, everything from glass terrariums to wooden vivarium's, and even tortoise tables.

DEEP REFLECTOR DOME 20CM
LIGHT AND HEAT REFLECTING METAL DOME

Code: 82333

NEW

A light and heat reflecting metal dome which has a highly reflective alloy interior.

- Maximises UVA and UVB light
- Focusses heat directly into the habitat
- For use with all E27 screw lamps and heat emitters upto 200W

200W

DOUBLES UVB OUTPUT

CERAMIC ES LAMP FIXTURE & MOUNTING BRACKET

Code: 82303

The Komodo Mountable Ceramic Lamp Fixture makes securely installing heat or light sources within a reptiles environment simple and safe.

- Sturdy, coated metal mounting bracket
- Easy to mount
- Heat and UV resistant fixture
- 170cm power cable with convenient switch
- For use with most E27 screw lamps & heat sources upto 200w

WHITE DOME CLAMP LAMP FIXTURE 14CM

Code: 82330

- With multi directional clamp
- Highly reflective aluminium dome can increase UVB & UVA output
- Heat Resistant ceramic fitting

60W

WHITE DOME CLAMP LAMP FIXTURE 21CM

Code: 82331

- With multi directional clamp
- Highly reflective aluminium dome can increase UVB & UVA output
- Heat Resistant ceramic fitting

150W

BLACK DOME CLAMP LAMP FIXTURE 14CM

Code: 82301

- With multi directional clamp
- Highly reflective aluminium dome can increase UVB & UVA output
- Heat Resistant ceramic fitting

60W

BLACK DOME CLAMP LAMP FIXTURE 21CM

Code: 82302

- With multi directional clamp
- Highly reflective aluminium dome can increase UVB & UVA output
- Heat Resistant ceramic fitting

150W

In addition to our range of lamp fixtures we also provide a secure solution for tortoise tables and mesh top terrariums with our new Light Stand. For use with fluorescent tubes, our compact, slim line, electronic ballasts provide continuous power which prevents the usual flickering that can occur with magnetic alternatives. Used in conjunction with our T8 Reflector every fluorescent tube will be utilised to their maximum with all light reflected back into a terrarium.

LIGHT STAND

Code: 82332

- Secure lighting bracket for all types of habitat
- Allows secure positioning of light or heat source
- Perfect for use with mesh top glass terrariums and Tortoise tables
- Easily adjustable
- Adjusts from 37cm to 63cm

HEATING

The Advanced Komodo Heat Mats are manufactured in the UK to the highest quality, conforming to 73/23/EEC standards and carrying the CE mark. They are an excellent source of 24 hour heat and produce long wave infrared heat to thoroughly warm a reptile from scale to bone. These versatile heat mats can be fixed to both the end or back of your chosen terrarium and are available in a number of sizes, catering for most enclosures.

Heat mats are ideal for producing gentle background heat; if keeping reptiles with high heat requirements it may be necessary to add an additional heat source. Komodo recommend that the advanced heat mat range be used in conjunction with an appropriate thermostat. Each heat mat comes complete with a 2 year guarantee.

Product Code	Description	Dimensions	Pack
82340	Advanced Heat Mat 3W	Approx. 9.5x14.5cm	Each
82341	Advanced Heat Mat 7W	Approx. 14x27cm	Each
82342	Advanced Heat Mat 15W	Approx. 27.5x27.5cm	Each
82343	Advanced Heat Mat 22W	Approx. 41x27.5cm	Each
82344	Advanced Heat Mat 30W	Approx. 57x27.5cm	Each
82345	Advanced Heat Mat 39W	Approx. 73x27.5cm	Each

HEATING

The Komodo range of ceramic heat emitters produce long wave, infrared heat which penetrates deep into the scales and tissue of a reptile.

These non light-emitting heaters offer an excellent 24 hour heat source, and will thoroughly heat the animal without the disturbance of an additional light source.

This product should always be used in conjunction with a thermostat.

THERMOSTATS

The Komodo Thermostat range offers a high quality design and build, alongside precision and safety. Precision is paramount when using any thermostatically controlled heat source; we understand the need to have complete confidence in such a vital piece of equipment, that's why our fantastic range of pulse, on/off and dimming thermostats are guaranteed to maintain the required temperature to within 1 Degree Celsius from around the probe, giving complete peace of mind that the animal is in a comfortable and controlled environment.

MONITORING

Monitoring of temperature and humidity within an enclosure is essential to providing every species with the correct environment. The Komodo range offers a selection of digital and analogue thermometers and hygrometers which provide instant readings and are incredibly easy to use. Also available in this range is the infrared thermometer which provides instant readings from any part of the enclosure, just point and click.

It is essential when keeping any type of pet to ensure a healthy and hygienic set-up for both them and the owner. At Komodo we recommend using reptile and amphibian friendly products which aid in keeping habitats clean and animals healthy.

TERRARIUM DISINFECTANT 500ML

Code: 82431

Komodo Terrarium Disinfectant is an all-in-one anti-bacterial cleaner and sanitizer which is safe to use with all reptile and amphibian set-ups including housing, equipment and any other hard surfaces. The deep cleaning solution is long-lasting and effective against MRSA, Listeria, E-Coli, Salmonella and other viruses and bacteria.

- Cleans and protects a reptiles home
- Deep cleansing disinfectant
- Kills bacteria and viruses
- Safe to use with all reptile, amphibian and invertebrate housing

NEW

HAND SANITISER 500ML

Code: 82430

Komodo Hand Santiser gel is ideal for keeping close to where reptiles are handled. The gel kills 99.9% of known germs and bacteria and removes the need for soap or water. Ideal for use after handling reptiles or for cleaning hands between terrariums.

- Helps reduce bacteria on skin
- Kills 99.9% of known germs and bacteria
- No need for soap or water – ideal for use after handling reptiles or between terrariums

NEW

SUBSTRATES

Made from 100% Calcium Carbonate, CaCo₃ sand has been developed to provide a safe and hygienic terrain for any desert dwelling reptile. Designed to be digestible if inadvertently swallowed it reduces the risk of impaction in a reptile. Available in a wide range of colours, it is ideal for achieving anything from a natural set-up to a vibrant enclosure.

If CaCo₃ sand is the chosen substrate when keeping tortoises, it is recommended that only natural colours are used.

Green Tree Python
(Morelia viridis)
 Found in New Guinea, islands in
 Indonesia, and Cape York Peninsula in
 Australia.

ACCESSORIES

Made from 100% natural materials, our new range of terrarium decorations are a natural alternative to plastic or resin hides. Each of the products offers either a place to hide or bask or the flexibility to be easily moulded into many different forms such as hides or bridges. All the products are ideal for use with most reptiles, amphibians and invertebrates.

DECOR

The importance of a dedicated hiding area for many species should never be underestimated; it can be key to maintaining a healthy, calm, reptile. Lack of a sheltered hiding space can lead to stress which in turn can be detrimental to a reptiles appetite and activity levels. The Komodo range provides an extensive choice of heavy duty resin hides with a natural finish, catering for many species. Suitable from hatchling to adult.
